Instructions

1. Print all pages onto letter size white card stock.
2. Cut out cover image and answer key along the lines.
3. Glue answer key to the ***back*** of the cover image ***before*** laminating it.
 - I recommend Elmer's Rubber Cement because it is acid free.
 - Let it dry completely before laminating.
4. Laminate everything including double-sided cover and answer key for long-term durability. Instead of laminating, you may use clear Contact paper.
5. Cut out each piece.
6. Trim the edges of the cover page.
7. I recommend the use of 3/8" Velcro Dots instead of magnets. They are self-sticking and will last a very long time on laminated items. Notice that half of the Velcro Dots are clear, and half are white.
 - Remove one clear 3/8" Velcro Dot. from the package
 - Attach the CLEAR DOT to the question piece on the mark.
 - Place each one in roughly the same place for uniformity.
 - The white Velcro Dot will be used on the back of the answer where it will not be noticeable.
8. Place the white Velcro Dot onto the clear dot with the Velcro sides touching each other.
9. Before adhering the Dot to the answer piece, adjust the placement so it does not cover the question.
 - Attach all answers to the questions in roughly the same way for uniformity.
10. Place everything in a 3-ring binder pencil pouch that has a clear plastic window. They are now ready for many years of use.
